LIFE FALKON in numbers

Project Areas

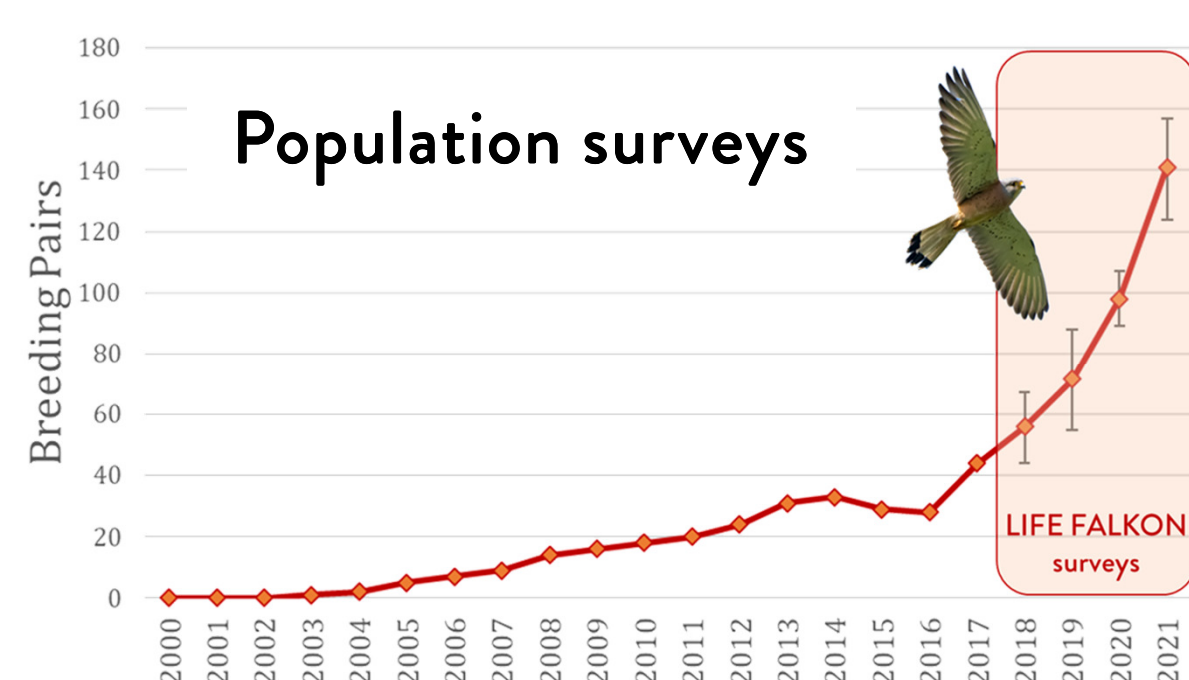

Conservation Actions

Research

GPS tracking of >60 adults and 22 juveniles

Migration tracks of Lesser Kestrels breeding in the N Italy (orange circle).

Solid lines: autumn migration
Dashed lines: spring migration
Blue areas: wintering areas

Education actions, stakeholders and citizens' involvement

More than 2,000 pupils contacted by LIFE FALKON. We also designed an original comic and a floor game (freely downloadable from our website!)

Acknowledgments

The LIFE FALKON team acknowledge all the ornithological associations, farmers, citizens and volunteers that have contributed to the project actions since 2018. Images are © of LIFE FALKON archive, unless differently stated. The content of the poster is solely responsibility of the authors.
